Car repair paints are based on the original car colour codes, for renewal and repair of car parts. The appropriate

Kompakt colour can be identified by referring to the Kompakt Colour Info Book and the Kompakt Colour Fan. Kompakt

Description	Contents	Part No.
Sanding Aid Black	500 ml	04057

STEP 1: Remove loose old lacquer and rust. Sand the surface to be treated. Damages, if any, can be treated with an appropriate putty.

STEP 2: The surface should be clean, dry and free of grease. Apply the primer in several thin layers. Shake the can after each layer is applied.

be treated with an appropriate filler, before repeating the procedure with Sanding Key Aid.

### PRIMER

Fast drying primer that primes both treated and untreated surfaces including wood, metal, aluminium, glass and stone. The primer offers excellent coverage and filling properties and prevents rust. The primer is easy to sand, both wet and dry (from grain 400) and can be resprayed with all paints. MoTip Primer is available in a 500ml aerosol and a 12ml touch-up.

# FILLER

Fast drying filler offering excellent coverage for blemishes on treated and untreated surfaces including wood, metal and aluminium. The filler has excellent filling properties and adhesion and prevents rust. MoTip Filler is easy to sand, both wet and dry (from grain 400) and is re-sprayable with all lacquer systems.

Description	Contents	Part No.	EAN-code	PU
Filler	400 ml	04064	8711347040643	6

Fast drying spray putty with excellent filling properties and coverage to fill small irregularities in surfaces, treated and untreated, of wood, metal and aluminium. Spray putty has excellent adhesion and prevents rust. MoTip Spray Putty is easy to sand, both wet and dry (from grain 400).

Description	Contents	Part No.	EAN-code	PU
Spray Putty	400 ml	04062	8711347040629	6

# PRIMER FILLER

Fast drying primer filler with excellent coverage to fill small irregularities in surfaces, treated and untreated, of wood, metal and aluminium. The primer filler has excellent filling properties and adhesion and prevents rust. MoTip Primer Filler is easy to sand, both wet and dry (from grain 400) and is re-sprayable with all lacquer systems.

Description	Contents	Part No.	EAN-code	PU
Primer Filler	500 ml	04053	8711347040537	6

# **ZINC SPRAY**

Fast drying zinc spray with good filling properties and excellent adhesion to treat galvanised and untreated steel. Zinc spray has outstanding cathodic corrosion prevention, is spot-weldable and is resistant to petrol, chemicals and weather influences. MoTip Zinc Spray is heat resistant to 350°C.

Description	Contents	Part No.	EAN-code	PU
Zinc Spray	400 ml	04061	8711347040612	6

# **ALU-ZINC SPRAY**

Fast drying alu-zinc spray with good filling properties and excellent adhesion to treat galvanised and untreated steel. Alu-Zinc spray offers outstanding cathodic corrosion prevention, is spot-weldable and is resistant to petrol, chemicals and weather influences. MoTip Alu-Zinc Spray is heat resistant to 250°C.

Description	Contents	Part No.	EAN-code	PU
Alu-Zinc Spray	400 ml	04059	8711347040599	6

# SPOT BLENDER

A mixture solvents to help level the surface when carrying out spot repairs. The blending properties of the spray enable a smooth blend between new and old paint to be achieved. MoTip Spot Blender has a fine and precise jet-spray which enables an instant and invisible result.

Description	Contents	Part No.
Spot Blender	150 ml	00108

Sand the surface. Protect and mask the surrounding surfaces with tape before applying MoTip Primer. Then apply the appropriate Motip Kompakt Paint within the masked-off area.

Protect the surroundings even more generously, apply a finishing layer of MoTip Kompakt Clear Varnish. In order to prevent crossing, spray within the protected area. After hardening of the clear varnish remove the tape. Make the surface dust-free with a clean, dry cloth. Spray the surface with Spot Blender, till the overspray blends like a film.

### **CLEAR VARNISH**

Fast drying acrylic lacquer with a lasting gloss for treated and untreated surfaces including metal, aluminium, glass, stone and various types of plastic. The varnish prevents rust, offers excellent adhesion, and is scratch-resistant, shock proof, resistant to petrol, chemicals and weather influences. It is available in both 150ml and 500ml aerosols and also a 12ml touch-up.

Description	Contents	Part No.	EAN-code	PU
Clear Varnish high gloss	500 ml	04009	8711347040094	6
Clear Varnish matt	500 ml	04000	8711347236565	6

# SEALANT

Description

**Bitumen Based Undercoating** 

**Bitumen Based Undercoating Bitumen Based Undercoating** 

**Bitumen Based Undercoating** 

Paintable grey sealant for sealing of joints, edge-to-edge joints, grooves and overlapping in car, carriage and container construction. Particularly useful for sealing welding points at the front and rear of cars and at places which are difficult to reach in the boot and interior of the vehicle. Properties: As it is very stable and processed almost fibrefree MoTip brushable sealant has an almost true-to-original surface structure. The sealant has excellent adhesive properties on untreated, primed, painted and galvanized metal sheets. The sealant dries swiftly, enabling it to be painted over quickly with all paints normally available. The sealant can stand temperatures from -25°C to +80°C. Directions for use: The surfaces must be clean, dry, grease and oilfree.

# **TAR & RESIN REMOVER**

Spray, with excellent dissolving properties, to remove tar, bitumen, asphalt and resin. MoTip Car Care Tar & Resin Removeris easy to apply and pH-neutral.

Description	Contents	Part No.	EAN-code	PU
Tar & Resin	600 ml	000765	8711347228898	6

# SPEED WAX

Very effective, user-friendly spray to obtain a lasting gloss. Suitable to treat lacquered, plastic and chrome-plated parts. Speed wax is ideal for larger surfaces. Speed wax is water repellent and gives a lasting gloss. Speed wax reduces the adhesion of dirt and protects against weather influences. MoTip Car Care Speed Wax is pH-neutral and nonpolishing and contains silicones.

Description	Contents	Part No.	EAN-code	PU
Speed Wax	600 ml	000710	8711347218868	6

# SCRATCH AWAY

Polish paste to remove small, superficial damages in lacquered surfaces. Scratch away restores the original colour and maintains the gloss. MoTip Car Care Scratch Away has high polishing properties and contains silicones.

Description	Contents	Part No.	EAN-code	PU
Scratch Away	250 ml	000745	8711347220434	6

# **CHROME POLISH**

Polish, with excellent cleansing properties, to protect and clean chrome parts. Chrome polish protects against weather influences and gives a glossy result. MoTip Car Care Chrome Polish reduces the adhesion of dirt, is free from solvents and contains silicones.

Description	Contents	Part No.	EAN-code	PU
Chrome Polish	500 ml	000742	8711347220373	б

### SUPER FAST WAX

User-friendly maintenance product to protect and restore the gloss of lacquered surfaces, both metallic and nonmetallic.

Description	Contents	Part No.	EAN-code	PU
Super Fast Wax	500 ml	000744	8711347220410	6

# **COLOUR RENOVATOR**

Polish to restore the gloss and the colour of weathered lacquered surfaces, both metallic and non-metallic. Colour renovator has excellent polishing properties and protects against weather influences. Colour renovator gives a glossy result and restores the original colour.

Description	Contents	Part No.	EAN-code	PU
Colour Renovator	500 ml	000741	8711347220359	6

# **POLISH & WAX**

Slightly polishing, user-friendly maintenance product to protect and restore the gloss of lacquered surfaces, both metallic and non-metallic.

Description	Contents	Part No.	EAN-code	PU
Polish & Wax	500 ml	000740	8711347220335	6

# **COLOUR POLISHES**

Polish to mask superficial scratches in lacquered surfaces, both metallic and non-metallic. Gives a glossy result and restores the original colour. Colour polish is lightly polishing and protects against weather influences.

Description	Contents	Part No.	EAN-code	PU
Colour Polish White	500 ml	000746	8711347220458	6
Colour Polish Black	500 ml	000747	8711347220472	6

# **CAR CONDITIONERS**

# **TECHNICAL SOLUTIONS**

# LEATHER CONDITIONER

User-friendly maintenance product to clean and protect upholstery of leather and semi leather. Leather conditioner reduces the adhesion of dirt and conditions leather. Leather Conditioner spray contains Vaseline and is silicone free. Leather Conditioner flacon is free from solvents and contains silicones.

Description	Contents	Part No.	EAN-code	PU
Leather Conditioner	600ml	000708	8711347218882	6
Leather Conditioner	500ml	000754	8711347220618	6

# **TEXTILE CLEANER**

Effective, fast-drying foam to clean fabrics. Textile cleaner is a user-friendly, dry, cleansing foam. MoTip Car Care Textile Cleaner has high dissolving properties and a subtle scent

Description	Contents	Part No.	EAN-code	PU
Textile Cleaner	600ml	000707	8711347218844	6

# **RUBBER & PLASTIC CONDITIONER**

User-friendly spray for exterior parts of vehicles. To condition rubber parts. And to restore the gloss and intensify the colour of plastic parts. Plastic & rubber conditioner gives a lasting gloss and is very suitable to remove residue of polishes. Plastic & rubber conditioner prevents freezing and drying out of rubber parts and protects against weather influences.

Description	Contents	Part No.	EAN-code	PU
Rubber & Plastic Conditioner	600 ml	000709	8711347218820	6

# **BUMPER BLACK**

Maintenance product for black, plastic bumpers, to restore the colour and the gloss. Bumper black protects against weather influences and reduces the adhesion of dirt. MoTip Car Care Bumper Black contains silicones and is free from solvents.

Description	Contents	Part No.	EAN-code	PU
Bumper Black	500 ml	000753	8711347220595	6

### PROTECTION

#### **V-BELT SPRAY**

Spray with excellent adhesion to protect V-Belts and to remedy and prevent slipping. V-belt spray is dilatant (increases in volume and viscosity) and user-friendly and gives lasting protection. MoTip V-Belt Spray delays the wear, conditions V-belts and is resistant to weather influences.

Description	Contents	Part No.	EAN-code	PU
V-Belt Spray	500 ml	090102	8711347226382	12

# CABLE PROTECT

Transparent spray with excellent adhesive properties to stop martens/small mammals from damaging cables and wires. The treated surfaces take on a sticky protective film and Cable Protect can even be applied to moving parts. It gives lasting protection, is odourless and resistant to weather influences, weak acids and bases.

Description	Contents	Part No.	EAN-code	PU
Cable Protect	500 ml	090103	8711347226405	12

# **IMPREGNATION SPRAY**

Protective spray to keep material and leather dirt-free. An invisible protective film is formed, which is water-repellent and breathable. It offers lasting protection and is user-friendly.

Description	Contents	Part No.	EAN-code	PU
Impregnation Spray	500 ml	090104	8711347226429	12

# **ANTI CORROSION PRIMER**

Fast drying, lead free red oxide primer to treat untreated surfaces of ferro-metal. Suitable as Pre-treatment for respraying with air drying alkyd lacquer systems. Anti-corrosion primer has excellent coverage, filling properties and adhesion. MoTip Anti Corrosion is weldable and easy to sand and has excellent corrosion prevention.

Description	Contents	Part No.	EAN-code	PU
Anti-Corrosion Primer	500 ml	090106	8711347226467	12

### SILICONE SPRAY

Silicone spray to lubricate and protect plastic or rubber parts. Silicone spray is water-repellent, pH-neutral and resistant to weather influences and weak acids and bases. Silicone spray prevents freezing and drying out of rubber parts and creaking and squeaking of plastic parts. Silicone spray has outstanding mechanical and thermal stability. MoTip Silicone Spray has a directed jetspray and is resistant to temperatures of - 50°C up to + 200°C.

Description	Contents	Part No.	EAN-code	PU
Silicone Spray	500 ml	090107	8711347226481	12

# TECHNICAL

# **ELECTRO PROTECT**

Electro preservative offers good penetration to help avoid starting problems caused by moisture. Electro protect is water and moisture repellent. It is also resistant to salt, weak acids, bases and is pH-neutral. MoTip Electro Protect offers excellent adhesion and corrosion protection.

Description	Contents	Part No.	EAN-code	PU
Electro Protect	500 ml	090108	8711347226504	12

# PTFE DRY

A dry surface lubricant that removes oil and grease from metal and plastic parts. It has a very low friction factor preventing wear and sticking, offers excellent adhesion and is resistant to weather influences. Suitable for parts that are subjected to light loads and low speed. It can be used as a release agent for moulds when the use of silicone is not required.

Description	Contents	Part No.	EAN-code	PU
PTFE Dry	500 ml	090201	8711347226245	12

# PTFE OIL

Universal lubricant with outstanding mechanical and thermal stability to treat mechanical parts of metal and plastic. PTFE oil has a very low friction factor, a fine structure (pPart size approximately 5 micrometer) and excellent adhesion. PTFE oil is resistant to weather influences and weak acids and bases, water-repellent and pH-neutral. PTFE oil prevents wear and sticking. MoTip PTFE Oil is resistant to temperatures of - 50°C up to + 250°C.

Description	Contents	Part No.	EAN-code	PU
PTFE Oil	500 ml	090203	8711347226269	12

# WHITE GREASE

Spray grease has excellent adhesion and high viscosity to lubricate mechanical parts of metal or plastic. White grease has outstanding mechanical and thermal stability and is resistant to weather influences and weak acids and bases. White grease is water-repellent and pH-neutral. White grease contains PTFE (polytetrafluoretheen) and prevents wear and sticking. MoTip White Grease is resistant to temperatures of - 30°C up to + 160°C.

Description	Contents	Part No.	EAN-code	PU
White Grease	500 ml	090204	8711347226283	12

#### CLEANING

# COLD CHEWING GUM FREEZER

Effective tool to remove chewing gum from carpets, upholstery and pavement. Chewing gum freezer briefly decreases the temperature to - 40°C. MoTip Chewing Gum Freezer is user-friendly and has a directed jetspray

Description	Contents	Part No.	EAN-code	PU
Chewing Gum Freezer	500 ml	090402	8711347226009	12

# **GASKET REMOVER**

Spray for the fast and easy removal of dried adhesives and seals, as well as hardened sealing material from car and machine parts. Motip Gasket Remover has excellent dissolving properties, is non-conductive, non-corrosive, is highly viscous, and user-friendly with a precise spray.

Description	Contents	Part No.	EAN-code	PU
Gasket Remover	500 ml	090403	8711347225705	12

# ANTI-WELDING SPRAY

A spray that helps prevent welding splatter from adhering to the area around the welding zone. It is non-flammable, silicone-free, and non-corrosive. Anti-Welding offers great coverage, can be removed with water and has a misty spray pattern.

Description	Contents	Part No.	EAN-code	PU
Anti-Welding Spray	500 ml	090404	8711347226061	12

### **QUICK START**

An effective product for eliminating internal combustion engine starting problems.

Description	Contents	Part No.	EAN-code	PU
Quick Start	500 ml	090405	8711347226085	12

# LEAK DETECTOR

Spray to trace leakages in gas pipes. Leak detector is non-flammable and non-corrosive. Leak detector can be removed with water and is environmental friendly. Leak detector is slightly foaming and slightly basic. MoTip Leak Detector is DVGW certified, number NG/5170BR0105.

Description	Contents	Part No.	EAN-code	PU
Leak Detector	400 ml	090406	8711347226047	12

# **CUT & DRILL LUBRICANT**

Oil to prevent over-heating of metals in cutting and drilling activities. Cut and drill lubricant protects and lubricates the tool and reduces wear of the tool. MoTip Cut and Drill Lubricant is silicone free and non-corrosive.

Description	Contents	Part No.	EAN-code	PU
Cut & Drill Lubricant	500 ml	090407	8711347225965	12

# **DUST REMOVER**

A high pressure product that loosens and removes dirt from hard to reach places. It is non-flammable, odourless and leaves no residue. It is easy to use with a powerful and precise jet-spray

Description	Contents	Part No.	EAN-code	PU
Dust Remover	360 ml	090408	8711347225743	12

# FREEZER ELECTRONIC

Effective, non-flammable tool to trace cracks in printed circuit boards. Freezer electronic can be used in various positions. MoTip Freezer Electronic briefly decreases the temperature to - 55°C and has a directed jetspray.

Description	Contents	Part No.	EAN-code	PU
Freezer Electronic	360 ml	090409	8711347225682	12

### PAINT REMOVER

Very effective tool to remove old layers of lacquer on surfaces of stone, concrete, asphalt, metal and wood. MoTip Paint Remover has a gel structure and is user-friendly.

Description	Contents	Part No.	EAN-code	PU
Paint Remover	500 ml	090410	8711347225729	12

# TOOL

### **ASSEMBLY**

### **BLACK OIL**

This grease prevents the wear and sticking of threaded connections that are subject to heavy workloads. Black Oil is water repellent, prevents corrosion, and is resistant to weather influences, weak acids and bases. It has a precise jetspray and a 360 degree valve.

Description	Contents	Part No.	EAN-code	PU
Black Oil	500 ml	090300	87113472255836	12

# **COPPER SPRAY**

Spray with a high copper content to prevent wear and sticking of screwed connections which are exposed to very high temperatures. Copper grease has high thermal stability and is corrosion preventive. MoTip Copper Grease is resistant to temperatures of - 40°C up to + 1.100°C.

Description	Contents	Part No.	EAN-code	PU
Copper Grease	500 ml	090301	8711347226122	12

### **VASELINE SPRAY**

Universal, transparent, lubricant and preservative with excellent adhesion. Vaseline is water-repellent, pH-neutral and resistant to weather influences and weak acids and bases.

Description	Contents	Part No.	EAN-code	PU
Vaseline Spray	500 ml	090302	8711347226146	12

# PENETRATING OIL

This oil has good penetrative properties allowing it to loosen rusted parts. It contains graphite and MoS2, is moisture repellent and prevents rusting

Description	Contents	Part No.	EAN-code	PU
Penetrating Oil	500 ml	090303	8711347226160	12

#### GLUE

Glue for both permanent and temporary adhesion. Suitable to glue paper, cardboard, wood, textile and various types of plastic.

Description	Contents	Part No.	EAN-code	PU
Glue	400 ml	090304	8711347226184	12

# SHOCK OIL

Effective tool to loosen rusted parts. As a result of the fierce decrease in temperature to -30°C and the lubricating properties of shock oil, the screwed connection can be loosed.

Description	Contents	Part No.	EAN-code	PU
Shock Oil	500 ml	090305	8711347226108	12

### FREEZER

MoTip Freezer briefly decreases temperature to -50C to loosen pressed connections and has a precise jet-spray.

Description	Contents	Part No.	EAN-code	PU
Freezer	500 ml	090306	8711347226207	12

### **CERAMIC GREASE**

Metal free ceramic grease with excellent adhesion, to treat parts which are subject to heavy workload and/or which are exposed to very high temperatures.

Description	Contents	Part No.	EAN-code	PU
Ceramic Grease	500 ml	090307	8711347226221	12

# **TAR SPRAY**

Lubricant and preservative to prevent wear and sticking of screwed connections which are subject to heavy workload. Tar Spray gives lasting protection, is water-repellent and resistant to weather influences and weak acids and bases. MoTip Tar Spray has excellent adhesion and excellent corrosion prevention.

Description	Contents	Part No.	EAN-code	PU
Tar Spray	500 ml	090308	8711347228973	12

### **ASSEMBLY GREASE**

Grease with excellent adhesion to prevent wear and sticking of screwed connections which are subject to heavy workload. Assembly grease is water-repellent and has an excellent corrosion prevention.

Description	Contents	Part No.	EAN-code	PU
Assembly Grease	500 ml	090310	8711347226344	12

#### **ASSEMBLY**

# ALU PRESSURE CAN

Refillable Alu Pressure can to process MoTip active substances. Minimum pressure 5 bar, maximum pressure 10 bar (compressed air). Suitable for 500 ml active substance. The following active substances can be processed: Copper Grease (can of 5 litre), Brake Cleaner (can of 5 litre and drum of 25 litre), Multispray (can of 5 litre) and Multi-Purpose Cleaner (can of 5 litre).
